## THE SIU PRIZE INTERNATIONAL CONFERENCE "AI FOR A BETTER WORLD"

The Saigon International University (<https://siu.edu.vn/>), an international higher education institution in Vietnam, was established following the Decision by the Prime Minister of Vietnam in 2007, as a member of the Group of Asian International Education (GAIE), which includes the Asian International School (Asian School), the Institute of Asian Studies (IAS), and the Saigon International University (SIU).

To celebrate Vietnamese and Vietnam-born talents around the world with exceptional doctoral theses that demonstrate the potential of significant contribution to the sustainable development of Vietnam and the global community, the Saigon International University has established the biennial SIU Prize for groundbreaking discoveries in the fields of Computer Science and Health Sciences.

In addition to celebrating excellence, the SIU Prize represents a pioneering effort to connect Vietnamese intellectuals with scientists, researchers, and innovators from around the world, contributing to the advancement of science and technology, as well as creating new value for the community.

The inaugural season of the SIU Prize in Computer Science began accepting nominations in September 2023, with the Award Ceremony scheduled for January 10 and 11, 2025. Within the framework of the ceremony, an International Conference titled "AI FOR A BETTER WORLD" will be held, creating a platform for scientists from both domestic and international backgrounds to present their research related to the field of computer science, particularly on studies focused on the development of safe and sustainable artificial intelligence systems in education, healthcare, transportation, construction, architecture, the digital economy, and smart and innovative urban society.

The International Conference will take place on the afternoon of January 10, 2025, and the morning of January 11, 2025, at the Dien Hong Theater, Đông A Hall, Saigon International University (18 Tong Huu Dinh Street, Thao Dien Ward, Thu Duc City, Ho Chi Minh City, Vietnam) in both in-person and online formats.

The Organizing Committee of the International Conference cordially invites esteemed scientists, experts, businesses, lecturers, doctoral candidates, graduate students, and undergraduates from both domestic and international backgrounds to submit papers for the conference. All submissions will undergo a blind peer review process, be edited, and published in the conference proceedings (with an ISBN). Selected authors will also be invited to present their papers at the conference.

Submissions should focus on the theme "AI FOR A BETTER WORLD" with two main topics:

- Development of Safe and Sustainable AI;
- Augmented Intelligence Systems Combining Natural and Artificial Intelligence.

### PROCEDURE FOR SUBMITTING PAPERS

- Please submit your paper online via the conference email: [siuprize@siu.edu.vn](mailto:siuprize@siu.edu.vn);
- Format your paper according to the guidelines available for download at [www.siuprize.org](http://www.siuprize.org);
- The language for writing and presenting at the conference is English.

### IMPORTANT DEADLINES

Date	Event
November 20, 2024	Deadline for submitting full papers for the conference proceedings
December 20, 2024	Deadline for confirming participation in the conference and presenting papers
December 27, 2024	Organizing Committee sends out invitation letters
January 10 & 11, 2025	Dates of the International Conference
